Ladies and Gentlemen of the Committee
Thank you for taking the time to read my correspondence.

I write the members of the committee to express my disapproval of the fore mentioned bills.

These bills do nothing to protect the people of CT.
Laws are already on the books concerning most of these topics

All these bills would accomplish is restrict the right to due process.
As you are all aware is protected by the 5th amendment

Since 2008 only 52% of temp restraining orders are granted permanent status. These are situations where the same due process you seek to impede determined the compliant to be unsubstantiated.

We already have strong laws concerning safe storage. To prosecute some one who's property is stolen for the crime committed is asinine.
Would you suggest we charge a victim of grand theft auto for all the crimes the thief committed with the stolen property ?

This is just another step in a coordinated well funded attack on the right to protect life and liberty.
Please uphold your oaths to both the CT and Federal constitutions.
Strike down these unmoral attempts to subjugate the good people of Connecticut

Sean McIntyre
